A New Machine That Responds to Various Business Needs

The compact flatbed design accurately meets your business needs.

Panasonic introduces a new, user-oriented office machine that accurately responds to your specific business needs and goals. It provides three essential business support functions – scanning, copying and printing – and lets you use them easily and efficiently.

Laser Printer

Beauty Plus Convenience

Flatbed Copier

Bringing new meaning to the word "copy"

Colour Scanner

The ultimate in detailed reproduction

Multi-Function

"3-in-1" multi-Function design dramatically improves business efficiency for every document-related task from copying to scanning and printing.

Quality Laser Printing

The laser printer function helps assure high quality reproduction at 600 dpi x 600 dpi resolution in every document and drawing you want to print or copy.

USB 2.0 High-Speed PC Interface

The KX-MB261 comes standard with a USB 2.0 High-speed interface for easy connection to a PC. The bundled "Multi-Function Station" launcher software allows easy setup and selection of multiple functions.

High-Speed 18-ppm Laser Printing

The KX-MB261 boasts high-speed printing and copying at speeds of up to 18 pages per minute with quick warmup time of 15 seconds.

250-Sheet Paper Tray

Since the standard paper tray can hold up to 250-sheet, you don't have to worry about running out of paper out even during a high-volume print.

Flatbed Design

In addition to a built-in flatbed allows you to scan, copy, or fax a variety of originals in different shapes or sizes such as magazines, newspapers, ID cards, business cards, etc.

High-Quality Image Reproduction

A CIS (Contact Image Sensor) makes possible high-speed scanning and high-resolution image reproduction even when the spine is raised slightly above the glass plate.

High-Resolution Copier

With resolution of up to 600 dpi x 600 dpi, sharp, clear copies are assured. Multiple copies of up to 99-sheet are possible.

18-cpm Copy Speed

The KX-MB261 delivers high speed copying of up to 18 copies per minute, with a warmup time of 15 seconds.

Colour Scanning with Flatbed

The KX-MB261 allows you to scan documents in colour or black-and-white at a high resolution of 600 dpi x 1200 dpi (with flatbed).

High-Quality Scanning

The KX-MB261 outputs scanning images with 24-bit colour gradations (48-bit input), or 8-bit black & white gray scales (16-bit input).

Image Processing Software

When the Multi-Function Station launcher software is installed on your PC, you can easily access a variety of image processing functions from the graphical menu. With the "Viewer (Scan)" menu, you can choose Page View, Reduction, Rotate, Duplicate, and Cut and Paste functions. OCR function is also available in 1-byte language designation models.
