AR-5520N

Speedy Copying with SOPM

The AR-5520N/5516N's Scan Once/Print Many (SOPM) function stores a scanned original into memory to quickly produce up to 999 copies of each page at a continuous copy rate of 20/16 cpm. Plus, their quick first copy time of 7.2 seconds saves valuable time when performing multiple short-run jobs.

Electronic Sorting

For further convenience, an Electronic Sorting function allows the AR-5520N/5516N to automatically collate multiple sets of copies in page order without the aid of a sorter.

Built-in Duplex Module and Optional RSPF

The AR-5520N/5516N can automatically produce duplex copies from one- or two-sided originals, thanks to a built-in duplex module. And duplex copying is even more productive when the optional 40-sheet Reversing Single Pass Feeder (RSPF) is used along with the module.

Versatile Editing Functions

The AR-5520N/5516N comes standard with such image-editing functions as XY Zoom, Dual Page Copy Mode, Rotation Copy, Margin Shift, Edge/Centre Erase, and 2-in-1/4-in-1—all of which make copying more convenient.

Speedy Network Printing

The AR-5520N/5516N is a high-performance TCP/IP network printer that incorporates Sharp Printer Language with Compression (SPLC) technology. SPLC effectively reduces the data size of print jobs, speeding up the transfer of data and the printing process while improving overall throughput. Another timesaving function, RIP Once/Print Many (ROPM), saves print data in the machine's internal memory and transfers it to output at a fast rate of 20 ppm for the AR-5520N and 16 ppm for the AR-5516N.

A3 B/W Scanning over the Network*

When it comes to document management, 600 x 600-dpi B/W scanning capability on the AR-5520N/5516N is an efficiency booster. Scanning paper documents into digital form makes them easier to organise, saves filing space, and rids your office of unsightly paper pileups. Since the AR-5520N/5516N supports the **TWAIN** standard, you can import scanned documents to a commercially available TWAIN-compliant application on your PC. **Button Manager** allows you to change/assign destination applications and scan settings, while the optional **Sharpdesk** desktop document management software lets you easily organise, search, edit, and distribute your scanned documents.

* Requires bundled connection utility (SC-Scan A).

Large Paper Capacity

The AR-5520N comes standard with two 250-sheet front-loading paper trays (one 250-sheet tray for the AR-5516N) and a 100-sheet multi-bypass feeder. Two types of paper drawers are available for a total paper capacity of up to 1,100 sheets.

Other Key Features

- 10Base-T/100Base-TX interface
- Digital auto exposure control, Text/Photo mode
- Automatic paper selection (APS)
- Automatic magnification selection (AMS)
- Auto tray switching
- Pre-Heat and Auto Power Shut-Off modes
- Cost-efficient Toner Save mode
